

Complements to 20 board

- Copy the board twice onto cardboard and cut up one of the boards to make a set of cards.
- Challenge the children to place each card onto the board to make complements to 20 (e.g. place card number 9 on number 11).
- Once all the numbers have been covered, ask the children to say and record the number sentences for the complements they find it hardest to recall.

17	5	8	18	6
2	11	1	12	7
13	4	16	10	3
14	9	10	19	15
