<p>Gather and organise: What do we know about?</p>	
<p>Identify - What is the task? Specify task and set success criteria.</p>	
<p>Generate: How many ideas can we think of to.....?</p>	
<p>Decide: Which is the best idea? Why?</p>	
<p>Implement: Children work in pairs/groups to.....</p>	
<p>Evaluate: How well did they do? Refer back to success criteria. Would they change anything? Did they choose the best idea? Did they use appropriate equipment? Is there anything they need to practise more or get better at?</p>	

Communicate:

Work with another pair to talk about your work. Pair-pair, individual to group etc...

What have we learned?

Did we learn any new skills? What did we learn about our partner from how they worked at the task?
